Meeting of Lithuanian partners of the project “Easy energy” and representatives of the Biržai District Municipality Administration

On November 17th, 2025 the Lithuanian partners of the project “Easy Energy” (hereinafter – the Project) – members of the implementation working group of the Panevėžys District Municipality Administration with the Project implementation working group of the Panevėžys Chamber of Commerce, Industry, and Crafts went to a meeting with representatives of the Strategic Planning and Asset Management Department and the Construction and Infrastructure Department of the Biržai District Municipality Administration to share their experience in implementing project activities and plan further steps for cooperation.

Domas Jankevičius, Chief Specialist of the Construction and Infrastructure Department of the Panevėžys District Municipality Administration, presented the project's objectives and reviewed the results achieved. Representatives of the Biržai District Municipality Administration presented the activities of the ongoing Interreg projects "Flip-EC" and "Repower industries".

Since the projects pursue similar goals in the areas of energy efficiency and renewable energy, the meeting was an opportunity to share experiences and challenges in implementing project activities and to discuss further cooperation opportunities.

After the meeting with representatives of the Biržai District Municipality Administration, the project working group members visited the Rinkuškių Brewery, where company representatives presented the energy-saving solutions that had been implemented.

For more information on the project, visit the Easy energy website <https://interreg-baltic.eu/project/easy-energy/>.

The Easy Energy project co-funded by the Interreg Baltic Sea Region Programme 2021-2027 helps drive the Energy Transition.
